A Quest for Common Sense, Compassion & Justice ~ Searching for truth, impacts & solutions around the New Zealand COVID Response

We are a group of concerned New Zealanders who are keen to shed light on the health and wellbeing issues New Zealanders are currently facing.

The "Safe & Effective" Roadshow looks to uncover truths, explore impacts, and propose solutions that matter to all of us. If you've witnessed the impact of the past few years first-hand - whether through personal loss or observing sudden health issues among loved ones - this Roadshow is your opportunity to seek answers and engage with others who share your concerns.

We invite you to join us for an enlightening journey of enquiry, knowledge and support. We will delve into our quest for common sense, compassion & accountability in the context of New Zealand's COVID Response and the resulting health & wellbeing of our loved ones, families, friends and communities.

WHY SHOULD YOU ATTEND?

- Have you or a loved one suffered from unexpected health issues in the past 2-3 years?
- Do you have questions about the New Zealand Government's COVID-19 response including the lockdowns, the mandates and mask wearing?
- Are you concerned about the effectiveness and safety of the COVID-19 vaccine, given the many health issues that have arisen?
- Do you want to learn more about the experimental mRNA platform of the COVID-19 vaccine and its potential impacts?
- Are you interested in understanding the situation in other countries regarding vaccine side effects, such as excess deaths, miscarriages, or turbo cancers?

PROMOTE YOUR BUSINESS, PRODUCT OR SERVICE!

Do you have a business, product or service that you think our audience would be interested in? Would you like to support the Roadshow and have your logo or information promoted at the event?
